

# Adam Perron

## Education

### Queen's University *September 2013 - June 2017*

Received a bachelor's degree in Computer Science with a specialization in Software Design. During my studies I was deeply involved in student initiatives and affairs.

## Experience

### Queen's University Teaching Assistant *Winter 2017*

Assisted with grading for CISC 282 Fundamentals of Web Development. Aided class of 120 students in understanding web development principles and concepts.

### Microsoft UI/UX Design Intern *Summer 2016*

Designed, developed, and shipped a bot-based web application while working in a team of five. Conducted UX research and user testing.

### Walkly Product Designer *2015 - 2016*

Created complete structural and visual redesign of an existing mobile application. Researched and conducted user testing on the experience of the product redesign.

### Compsa Web Services Business Manager *2015 - 2016*

Responsible for company rebranding and marketing. Worked directly with clients to provide creative web solutions within given budgets.

### IBM Interaction Designer Intern *Summer 2015*

Researched, designed, and implemented interactive data visualization proof-of-concepts. Worked closely with UX and research teams to develop interactive prototypes for Watson Analytics.

## Awards

### Code the Change 2<sup>nd</sup> Place Winner *January 2015*

Worked as Project manager to design front-end for a local charity website.

### CSS Hackathon 3<sup>rd</sup> Place Winner *September 2014*

Designed a mobile app allowing students to maximize their meal plan credits.
